

GRAD STUDENT & POSTDOC RESEARCH DAY Thursday 20.11.2025

10:00 a.m. **Opening**

10:10 a.m. **Scientific Session I**

Seeing is believing – The secrets of antigen-specific T cells
Prof. Dr Alexander Scheffold – AG Scheffold

Macrophage-derived CCL24 is required for eosinophil infiltration into the lung tissue during asthma
Jean Philippe Auger – AG Krönke

Towards Mechanisms of human memory T cell survival
Emilia Schneider Revueltas – AG Radbruch

Beyond the barrier: microbial signatures shape dermal innate lymphoid cell function and skin homeostasis
Bruno Rocha – AG Diefenbach

11:20 a.m. **Coffee Break**

11:50 a.m. **Scientific Session II**

Towards the molecular mechanism of LMP1 induced B cell lymphomagenesis
Dr. Yue Zong – AG Rajewski

From Gut and Saliva to Serum: Antibody Levels and Microbiome Composition in IgA Nephropathy
Robin Kempkens – AG Chang

Dual targeting of IL-1 β /IL-18 in Macrophage Activation Syndrome
Eugenia Díaz – AG Krönke

Synovial NK cells from disease-specific niches with cDC1s in juvenile idiopathic arthritis
Oliver Knight – AG Romagnani

01:00 p.m. **Lunch Break**

02:00 p.m. **Poster Session**

02:50 p.m. **Miltényi Biotec Portfolio Session**

UltraMicroscope Blaze – Fast 3D imaging of organoids, organs and organisms
Stephan Werk – Miltényi

03:50 p.m. **Coffee Break**

03:50 p.m. **Mental Health Session**

Mental health talk & therapy
Jana Heiland – Social work and Systemic Therapy

DRFZ Survey presentation
Laleh Khodadadi and Gabriela Guerra – Equal Opportunity Team

04:40 p.m. **Career Session**

From Pipettes to Projects: A PhD's Leap into Biotech
Dr. Felix Heider – Miltényi

Sales vs. Academic Research – Do you really have to make a decision?
Dr. Martin Hahne – Miltényi

05:20 p.m. **Closing**

05:30 p.m. **Dinner & Social Event**
